EXPERIENCE

NOV 2022 – PRESENT

SENIOR FRONT-END ENGINEER, ACCENTURE THAILAND

Accenture Thailand is one of the leading technical consultant companies where we developed the OpenAPI platform using the most powerful cutting-edge front-end technologies such as NextJs, React, TypeScript and Bootstrap, ReactHook Form, React Query, Markdown, Keyclock authentication, and other essential Web development fundamentals. In OpenAPI projects, we implemented many factors including authentication, application management, user management, activities management, application performance, etc.

Tasks and Main Responsibilities
- Write clean, efficient, and maintainable code using React best practices.
- Develop reusable components and libraries to enhance productivity.
- Integrate APIs and external services into the React application.
- Ensure code quality through code reviews and adherence to coding standards.
- Collaborate with the team to define project requirements and goals.
- Help resolve technical challenges and provide innovative solutions.
- Provide technical guidance and mentorship to junior developers.
- Share knowledge and best practices with the team.
- Optimize rendering, minimize re-renders, and improve overall performance.
- Collaborate effectively with cross-functional teams (designers, backend developers, etc.)
- Provide insights and suggestions for continuous improvement.
- Stay updated with the latest advancements in React and front-end development.
- Develop and implement comprehensive testing strategies (unit tests, integration tests, etc.).
- Ensure high test coverage and maintain test suites for the React application.
- Conduct code reviews and participate in peer programming sessions.
- Perform debugging and troubleshooting to resolve issues.
- Monitoring and improving front-end performance.
- Documenting application changes and developing updates.

AUG 2021 – OCT, 2022
SENIOR WEB DEVELOPER, EVFY SINGAPORE

EVFY operates a Fleet Management System, Warehouse Management System, and EVFY Website. Laravel PHP Framework, Ruby on Rail Framework, React JS Framework, and PostgreSQL are tech stacks to develop and maintain these systems. I developed authentication and authorization processes, advanced search features, exporting, importing, and reporting for these systems.

Tasks and Main Responsibilities
 Frontend (React JavaScript Framework)
- Reviewing application requirements and interface designs.
- Developing and implementing highly responsive user interface components using react concepts.
- Monitoring and improving front-end performance.
- Documenting application changes and developing updates.

Backend (Laravel PHP Framework and Ruby on Rails)
- Generate API using backend technologies for frontend
- Participate in the entire application lifecycle, focusing on coding and debugging
- Write clean code to develop functional web applications
- Troubleshoot and debug applications
- Collaborate with Front-end Design to integrate user-facing elements with server side logic

DEC 2018 – AUG 2021
JUNIOR WEB DEVELOPER, MOGOZAY

Mogozay was one of leading e-commerce website in Myanmar which was released in two versions. Version one was developed using Codeigniter PHP Framework and other Web fundamental and October CMS using Laravel PHP Framework and React JS were used to develop second Version. Mogozay features e-commerce shopping UI interface, online payment integration, inbound, outbound and order management system.

Tasks and Main Responsibilities
- Develop the Both of Frontend and Backend
- Revamp the CMS frontend Design
- Deal with the internal operation team and fix the technical issue they report
- Learn new Technology and support the Internal IT team and complete the particular responsibility

JUN 2018 – AUG 2018
NETWORK ENGINEER (INTERN), MOBILE NETWORK SOLUTION AND CONSULTANT

JAN 2017 – JUL 2018
DATA ENTRY SPECIALIST, BUSINESS OUTSOURCE SOLUTIONS SERVICES

PROJECTS

REAL-TIME CHAT APP

REAL TIME CHAT APP (NODE.JS)

I developed this app using node.js JavaScript Framework and web development fundamentals for communication, texting and sending location. User can create the room and wait for other users join his or her room. When other user joins that room, their name appears left side and start communicating.

LOCATION APP

LOCATION APP

This app is designed Node.js for finding longitude and latitude and exact location for corresponding place. User can type any place over which they want to know and then longitude, latitude and location of that place will be shown.

TASK MANAGER API

TASK MANAGER API

This app is developed for learning restful API using Node.js framework and Restful API architecture. Main feature of this app is creating tasks and assigned those task to particular manpower.

TU(HMAWBI) NEWS WEBSITE

This app is designed for creating news articles by authorized people. It includes admin portal to upload posts and news articles. Other information and activities of TU(Hmawbi) university are shown at this website. This is very useful for students and visitors who want to learn about our school at one-sitting. I developed this app as third year school group project. The tech stacks for this are pure PHP and web development fundamentals.

EDUCATION

2013 - AUG 2018

BACHELOR OF ENGINEERING - BE, INFORMATION TECHNOLOGY,

TECHNOLOGICAL UNIVERSITY HMAWBI

We developed TU(Hmabi) news website using pure PHP and other web fundamentals in second year as year project. I created a Shark Killer game as final year thesis in final year.

2018 – 2020

ENGLISH LANGUAGE AND LITERATURE/LETTERS, U MYA KYAING ENGLISH

LANGUAGE SCHOOL

SKILLS

- HTML
- PHP
- JavaScript
- React JS
- Next JS
- Ruby on Rails
- Node JS
- Git

- TypeScript
- TailWindCSS
- CSS
- JQuery
- Laravel
- Bootstrap
- Codeigniter
- MySQL
- PostgreSQL

EXPECTED SALARY

-NEGOTIABLE

ACTIVITIES

I love to read the books and up-to-date news happening around the world and learn updated new web-developing technologies in my spare time. I join English language activities very often to upgrade my English fluency. I do some volunteering jobs at non-profit English language school as instructor and moderator speaker in speaking club. In my free time I enjoy watching English-speaking movies to polish my English and relax. Sometimes I meet up with some professionals from IT field and have discussion about cutting edge technologies. Basketball is one of my favorite sport and play with my friends on some weekend days.
